

Claims

1. Layout game comprising a number of cards having images which when playing the game have to be laid out in matching connections, wherein the images are spaced from at least one border portion of the cards.
5
2. Layout game according to claim 1, wherein the cards are at least partially made of transparent material, particularly the said border portion.
- 10 3. Layout game according to claim 1 or 2, wherein the images are spaced from at least half the circumferential border of the cards.
4. Layout game according to claim 3, wherein the images are spaced from at least almost the entire circumferential border of the cards.
15
5. Layout game according to any one of the preceding claims, wherein the images have a shape that is similar to the cards.
6. Layout game according to any one of the preceding claims, wherein
20 the images are polygonal.
7. Layout game according to claim 6, wherein the images are triangular.
8. Layout game according to claim 7, wherein the images form the
25 game triominos.

9. Layout game according to claim 6, wherein the images are rectangular.
10. Layout game according to claim 9, wherein the images form the
5 game dominoes.
11. Layout game according to any one of the preceding claims, wherein the cards are polygonal.
- 10 12. Layout game according to claim 11, wherein the cards are rectangular.
13. Layout game according to claims 1, 5 and 6, wherein the said border portion forms a side of the polygon.
- 15 14. Layout game according to claims 3 and 13, wherein the said half of the circumferential border forms two or more sides of the polygon.
15. Layout game according to claim 14, wherein the said sides match
20 each other.
16. Layout game according to claim 4, wherein the image is centred with respect to the card.
- 25 17. Layout game according to claim 11, wherein the image matches at least one corner.
18. Layout game according to any one of the preceding claims, wherein the image is incorporated in between two transparent foil layers.

19. Layout game according to any one of the preceding claims, wherein at least one border portion of the image is parallel to a border portion of the card.

5 20. Layout game according to claim 19, wherein the circumferential border of the image is substantially parallel to the circumferential border of the card.

21. Card suitable and intended for a layout game according to any one
10 of the preceding claims.

22. Packaging containing a stack of cards according to claim 21.

23. Layout game provided with one or more of the characterising
15 measures described in the attached description and/or shown in the attached drawings.

24. Card provided with one or more of the characterising measures
described in the attached description and/or shown in the attached
20 drawings.
